Things to Consider

1. How important is the entertainment to your event?
2. What is your music vision? There are various options and styles.
   (DJ, band, live musician, DJ/musician combo)
   ***Do they have experience playing your requested music genres?
3. Are there any special location requirements needed?
   - How many sound systems are needed? Ceremony, Cocktails, Reception
   - Is there a need for wireless speakers with multiple rooms?
   - Does the entertainment company need to bring their own power?
4. Do you need additional audio/video support for the rehearsal dinner or after-party?

Do Your Research

1. Carefully view the company's website & social media pages.
   (view pictures, videos, reviews and available packages)
2. Ask venues and event professionals who they recommend and why?
3. Research the owners name
4. Read reviews from various sources to get a more accurate portrayal of a business.

Make the Call

1. Allow the company to describe their event style & allow them describe on their experience.
2. What type of events do they do most?
3. How many events they do a weekend/year? Quantity vs. Quality of events
4. How many songs are in their repertoire?
   Are the songs ***all*** on a hard drive or they have to depend on Wifi to download the songs?
   What happens if the Wifi signal or power is lost?
5. How many songs can be requested?
6. Do they take breaks?
7. What kind of equipment is used? Is there a backup system?
8. Are there any additional costs? Admin. Fees (hidden profit fees)?
9. Do they have event insurance?
10. ***How many years experience does your assigned DJ/Band have total? And how long are they with the company?
